1) Movie Search: Build a movie search application that fetches movie data from the API (https://www.omdbapi.com/?apikey=${apiKey}&t=${moviename}) based on user input (moviename) and displays details such as title, Released date, actors, plot, poster and ratings.
   api key: fa1c9c03

2) Build a random quotes generator in a React application. The goal is to fetch and display random quotes from an API. Below are the steps you need to follow:

   API Integration: "https://dummyjson.com/quotes" API. This API provides random quotes in JSON format.

   User Interaction: Include a button that, when clicked, fetches another random quote and displays it on the screen.
